

ASSEMBLY & TESTING

POWDER COAT & PAINT

SHEET METAL FABRICATION

Twist has been in the manufacturing sector since 1971 and supports a multitude of industries including: automotive, medical, military and aviation. We currently operate ten (10) manufacturing facilities with over 680,000 square feet and 300 employees in Southwest Ohio.

The Twist Aero line of GSE includes: **Pre Conditioned Air Units, The Boom Air Hose Management System, Ground Power Units, and Hoses and Hose Storage Systems.** We also offer General Contracting installation services.

All Twist Aero products are manufactured, finished, assembled and tested onsite. This allows for superior quality, competitive pricing and reduced manufacturing time. What differentiates Twist from our competitors is our dedication to manufacturing the highest quality product possible.
